Why Choose Us

Opasa Pty Ltd is a dynamic and innovative business located in the vibrant city of Melbourne, Australia. We are a global player in the Information Technology, Cyber Security, Data/Artificial Intelligence, and Software Development sectors, providing a wide range of services to clients across the globe. Our international reach allows us to bring world-class IT solutions to businesses of all sizes, helping them to thrive in the digital age.

Expertise that Matters:

Our team comprises seasoned cybersecurity professionals and cloud experts with a wealth of experience. We stay ahead of emerging threats, employing cutting-edge technologies and industry best practices to fortify your defenses.

Tailored Solutions for Your Needs:

Recognizing that every business is unique, we don't offer one-size-fits-all solutions. Instead, we work closely with our clients to understand their specific challenges and develop customized strategies that align with their goals and compliance requirements.

Continuous Innovation:

Cyber threats evolve rapidly, and so do we. Opasa is committed to staying at the forefront of technological advancements. We invest in research and development to ensure our clients benefit from the latest innovations in cloud and cybersecurity.

Why Choose Us

Responsive Support:

Our dedicated support team is available around the clock to address your concerns and respond swiftly to any security incidents. We believe that effective cybersecurity is not just about prevention but also about rapid response and remediation.

Proven Track Record:

Opasa has a proven track record of success in safeguarding organizations across industries. Our satisfied clients speak to the reliability and effectiveness of our solutions, giving you the confidence that your digital assets are in safe hands.

Global Presence:

Opasa maintains a global presence with operations spanning three locations: Australia, the United States, and India.

Secure your digital future with "Opasa". Partner with us to fortify your defenses, mitigate risks, and embrace the opportunities that the digital landscape presents.

Engagement Model

ONSITE

Our experts at your location join your team and get to know your business, your challenges and the way you work.

OFFSITE

We perform the work at our US office. This is a great option when you need support from a nearby location without having to invest in upgrading your infra structure.

OFFSHORE

Work is performed at our global deliver center in Bangalore. This is a good option when you need round the clock support with high quality and low cost.

HYBRID

We can do much of the work offsite and be onsite for critical tasks like business analysis, user training and integration providing the best of both onsite and offsite models
